We are committed to treating people with disabilities in a way that allows them to maintain their dignity and independence. We believe in integration, and we are committed to meeting the needs of people with disabilities in a timely manner. We will do so by removing and preventing barriers to accessibility and meeting our accessibility requirements under the Accessibility for Ontarians with Disabilities Act and Ontario's accessibility laws.

Van Harten Surveying Inc. is committed to meeting its current and ongoing obligations under the Ontario Human Rights Code respecting non-discrimination.

We understand that obligations under the Accessibility for Ontarians with Disabilities Act, 2005 (AODA) and its accessibility standards do not substitute or limit our obligations under the Ontario Human Rights Code or obligations to people with disabilities under any other law.

We are committed to excellence in serving and providing goods, services or facilities to all customers including people with disabilities.

- What to do if a person with a disability is having difficulty accessing our organization's goods, services or facilities

We maintain records of the training provided, including the dates on which the training was provided and the number of individuals to whom it was provided.

Assistive Devices

People with disabilities may use their personal assistive devices when accessing our goods, services or facilities.

In cases where the assistive device presents a significant and unavoidable health or safety concern or may not be permitted for other reasons, other measures will be used to ensure the person with a disability can access our goods, services or facilities.

Communication

We communicate with people with disabilities in ways that take into account their disability. This may include the following:

- Reading written information to a person directly
- Large print
- Text transcripts of audio or visual information
- Handwritten notes instead of spoken word
- Information written in plain language
- Paper documents converted to electronic format

We will make every effort to accommodate any methods of communication that are required by a person with a disability that are not already listed above.

We will work with the person with a disability to determine what method of communication works for them.

Service Animals

We welcome people with disabilities and their service animals. Service animals are allowed on the parts of our premises that are open to the public and third parties.

When we cannot easily identify that an animal is a service animal, our staff may ask for documentation (template, letter or form) from a regulated health professional that confirms the person needs the service animal for reasons relating to their disability.

A service animal can be easily identified through visual indicators, such as when it wears a harness or a vest, or when it helps the person perform certain tasks.

A regulated health professional is defined as a member of one of the following colleges:

- College of Audiologists and Speech-Language Pathologists of Ontario
- College of Chiropractors of Ontario
- College of Nurses of Ontario
- College of Occupational Therapists of Ontario
- College of Optometrists of Ontario
- College of Physicians and Surgeons of Ontario
- College of Physiotherapists of Ontario
- College of Psychologists of Ontario
- College of Registered Psychotherapists and Registered Mental Health Therapists of Ontario

If service animals are prohibited by another law, we will do the following to ensure people with disabilities can access our goods, services or facilities:

- Explain why the animal is excluded
- Discuss with the customer another way of providing goods, services or facilities

Support Persons

A person with a disability who is accompanied by a support person will be allowed to have that person accompany them on our premises.

In certain cases, this organization might require a person with a disability to be accompanied by a support person for the health or safety reasons of:

- The person with a disability
- Others on the premises

Before making a decision, Van Harten Surveying Inc. will:

- Consult with the person with a disability to understand their needs
- Consider health or safety reasons based on available evidence
- Determine if there is no other reasonable way to protect the health or safety of the person or others on the premises
